Hi Joe,

Thank you for making the changes/updates.

From a Traffic perspective the classifications and changes make logical sense, and am happy with the provisions that have been made.

At some point if not already, please would you liaise with Phil Bush in relation to amendments around Winter Gritting routes (these will also require amending on the Gazetteer).

If you would also be able to notify the counterparts I deal with across boundary (as mentioned below) of the changes it would be appreciated, these are;

- Robert Davey ([REDACTED]) – Bristol City Council
- Gary Masters ([REDACTED]) – National Highways
- Beverley Norman ([REDACTED]) – Somerset County Council

I have copied Darren Coffin Smith to this email for information/awareness.

Regards,

Paul.
